

**The Injury Studies Network is pleased to announce its first spring workshop in 2026!** The event will cover the research methods, ethics, teaching, and outreach of injury studies and offer an opportunity for researchers at all levels to present their work and to connect with potential collaborators. We are currently drafting the workshop program and will have more information soon.

**Please follow the QR code to register for the event,** which will take place over Zoom on Friday, March 13, and Saturday, March 14, from 10:00 AM to 3:00 PM U.S. Eastern Time. We will follow up with the Zoom information and final schedule for the workshop in early 2026.

**If you would like to present** a five-minute flash talk about an injury-related research, teaching, outreach, grant, or art project at the workshop, please use the workshop registration form to submit an abstract.

**For questions** about the workshop or the Injury Studies Network – or to be added to our mailing list – please email Dr. Alex Parry at [alexander\\_parry@urmc.rochester.edu](mailto:alexander_parry@urmc.rochester.edu). We hope to see you there!

Friday & Saturday  
March 13-14, 2026

10:00 AM - 3:00 PM US ET
